

Splunker on Staff

2020 Professional Services
Partner of the Year

Splunk. It's what we do.

bitsIO offers a range of experts to help meet your unique needs. From Splunk Power Users to Splunk Senior Consultants, we have trained resources to ensure full adoption of your Splunk requirements. Whether Splunk expertise has left your organization, you are looking to expand or compliment your team bitsIO can provide immediate results.

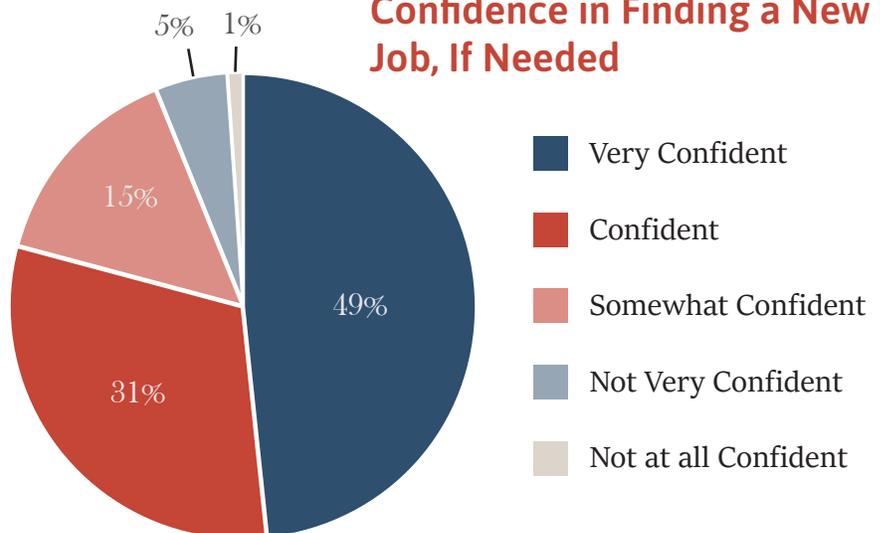

bitsIO is an international provider of Splunk services operating in North America, South America, and Asia.

Why look for more resources when you already found bitsIO?

Splunk resources are difficult to find, train, retain, and develop. The process is extensive and time consuming. Why find, train, and manage resources when you have a time-tested partner in the Splunk ecosystem? bitsIO has been expert in Splunk since 2013 allowing us to create an exclusive bench of dedicated Splunk engineers ready to take on any environment and surpass your expectations.

Splunk Practitioners' Confidence in Finding a New Job, If Needed

The Splunk job market is competitive market. Splunk Practitioners feel confident that with their skillset, they will be able to find a new job within 3 months of leaving their previous position.

SPLUNK POWER USER

Demonstrates an individual's foundational competence of Splunk's core software and normalizing data with the Common Information Model.

LABOR CATEGORIES

Manages the day-to-day administration and health maintenance of Splunk, including license management, indexers and search heads, configuring and monitoring, and onboarding data.

SPLUNK ADMIN

Expertise in Splunk deployment supporting your entire IT portfolio. Significant experience in Premium Apps and the ability to lead a team of Core Consultants to drive business ROI for complex implementations.

Incorporates all aspects of a Splunk Admin and demonstrates outstanding experience in Splunk Premium Applications and the ability to implement specialty configurations.

SPLUNK SENIOR ADMIN

SPLUNK SENIOR CONSULTANT

Trained expertise in Splunk deployment working with large Splunk installations and multi-tier architectures, clustering, and scalability topics. Able to properly size, install, and implement Splunk environments.

SPLUNK CORE CONSULTANT
