

# Get the most out of your Splunk investments with bitsIO

Here at bitsIO, we are 100% dedicated to Splunk. There is no partner better prepared to take on your environment. Whether you're new to the platform or an experienced user, our team is equipped to ensure your Splunk deployment creates value, efficiency, and opportunity throughout your organization.

## Splunk is truly the Data-to-Everything™ Platform

Since its inception, Splunk has transformed the way organizations search, analyze, visualize, secure, and monetize machine-generated data.

With Splunk, you can unify all your data onto a single platform to make it more:

### Accessible

Access and search data from any source, across any device

### Usable

Visualize data and get real-time alerts when thresholds are met

### Valuable

Create and share data-driven insights across your company

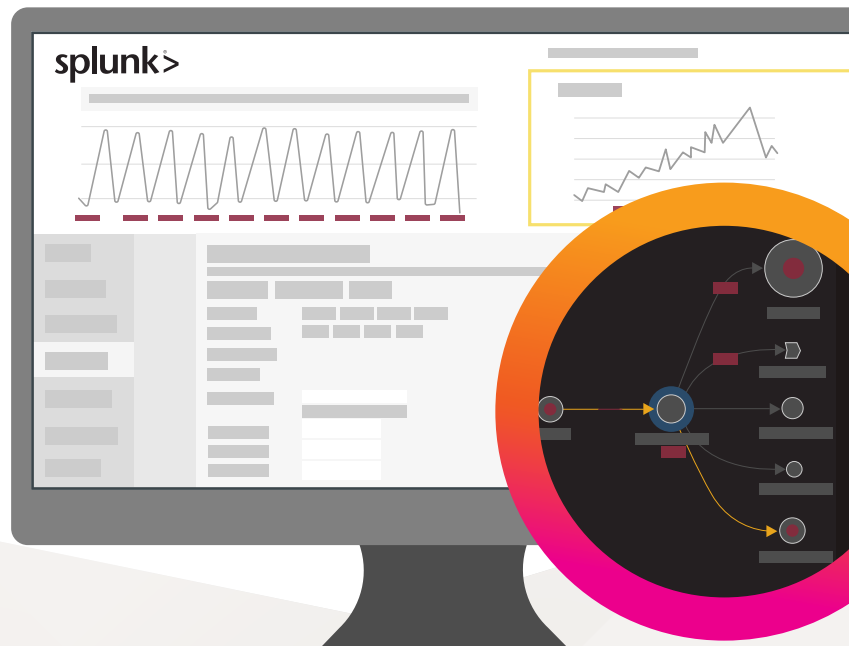

## While Splunk is a powerful tool...

It requires a level of expertise that most organizations don't have on staff. At bitsIO, we provide our team access to additional training and certifications allowing them to develop the skills needed to work with you on getting the most out of your Splunk environment.

## Let us create a proven path to Splunk success for your organization

We are an organization of Splunk professionals with a mission of helping companies deploy, customize, and manage Splunk so they can benefit from real-time data insights across both IT and the business.

Our solutions and services were built to help you address every stage of the Splunk lifecycle:

### Enterprise Architecture and Installation

Configure and deploy Splunk Enterprise, Cloud, ES, UBA, or ITSI based on best practices.
